## Press Release

For Immediate Release  
March 25, 2018

### Structure Fire *1500 Light Road*

**(Oswego, IL)** Just prior to 19:30, Oswego Fire Protection District personnel were dispatched to 1500 Light Road for a reported structure fire in a building under construction. Upon first fire units arrival they found a small fire in a lower unit. Firefighters forced entry and extinguished the fire. The fire was contained to construction material within the unit and had not spread to the building itself.

No units of the building were occupied at the time of the fire as the building was being rehabbed from a fire last year.

There were no injuries to firefighters or civilians.

The cause of the fire was determined to be from a natural gas heater that appeared to have fallen over next to construction materials.

*The Oswego Fire Protection District was formed by voter referendum in March of 1936, covers over 60 square miles in the northeast portion of Kendall County and about 1.5 square miles of northwest unincorporated Will County.*
