OSWEGO FIRE PROTECTION DISTRICT CENTRAL STATION ROOM RESERVATION MEETING ROOM RULES ATTESTATION

MEETING ROOM - EMERGENCY PROCEDURES

Initial Actions

Visitors to the Oswego Fire Protection District Central Station Meeting Room *may* encounter emergencies that require immediate action. Emergencies may include:

- Tornado or other storm warning
- Fire and smoke report
- Hostile or suspicious person

In each of these cases, guests of the fire district meeting room should take immediate action to ensure their own safety. The district recommends that the meeting organizer point out the shelter areas and exits to all attendees prior to that start of the meeting.

General Actions

Evacuation

If the building's fire alarm system activates, occupants should evacuate the building and remain in the general parking area in front of the building unless otherwise directed by emergency responders or building staff. Once evacuated, please stay away from exits and roadways to allow quick access for emergency responders.

The meeting organizer shall have a "roster" of attendees and ensure that all meeting personnel have evacuated the building and are accounted for outside of the facility.

Shelter

Occupants may be required to shelter in place for tornado warnings or threat of other hazardous weather. For tornado or other high wind/hazardous weather conditions, occupants shall shelter in place in the two restrooms in the interior hallway firstly, and then in the interior hallway itself, unless and until fire district personnel provide other areas of shelter.

Muster areas

For tornadoes/hazardous weather, the preferred areas of refuge are the restrooms in the interior hallway and the interior hallway itself.

For building evacuation due to an activated fire alarm, the preferred muster area is the brick walkway in the middle of the front parking lot.

For building evacuation due to a hostile or suspicious person, the preferred area of refuge is the Oswego Police Department lobby next door (*this can also be used for general evacuation in severe/inclement weather conditions*).

Concluding Actions

Occupants shall follow the direction of emergency responders before re-entering the building following an emergency.
